Strengths Questionnaire

The Ethos Behavioural Styles: (S) questionnaire measures the underlying behavioural characteristics which allow us to thrive in the correct environment. Character strengths are essential to performance, wellbeing, and employee engagement, largely determining the degree of fit between the individual and their environment.

This questionnaire comprises 161 questions and takes around 15 minutes to complete, although the assessment is untimed. As a result, candidates can take as much or as little time as they require.

This assessment measures six broad areas which collectively comprise a person's character strengths: Perception, Fortitude, Compassion, Collectivism, Integrity, and Positivity. Together, these traits outline a person's strengths, the characteristics which allow people to thrive in the correct environment.

The Ethos Behavioural Styles Series

The Ethos behavioural Styles series of questionnaires have been designed to measure key behavioural traits which underpin performance, well-being, and engagement in the workplace. These assessments have been designed with positive psychology principles in mind, measuring the traits which help people to thrive and gain fulfilment from their work.

Which Character Strengths does the Strengths Questionnaire Measure?

The Ethos Behavioural Fit (S) reports all of the traits below and also gives you the option to create your own JobFitScore by combining traits into one aggregate measure. **Optional:** tick all the boxes you'd like to add to your JobFitScore to add an extra combined score scale to your PDF reports.
